## ASTROLOGY SIGNS FOR USA STATES AND CITIES

Here is your free handout on the astrology of States, Cities, and a few countries.

For information on your personal power places, see the explanation for the EARTHLINES™ (AstroCartoGraphy®) Maps and Consultation at the bottom of this document. Definitions and terms associated with relocation astrology are also at the end of this document.

Following is a listing of Sun signs for several countries, states, and cities. **Be aware that some places will have more than one sun sign based upon differences in the data sources, political changes, and so forth.** For example, Portland, Oregon has at least two charts. Because of these common discrepancies in what is known as “mundane astrology,” the following data is provided to serve only as a general guide. **It is likely that there will be errors here.** There can be differences in the founding of a location, legal paperwork. In the case of countries, there can be dates when a revolution started, when a new leader took over, or even when the new constitution was confirmed. Check with your local astrology group to see if they have more specifics about your city. **If you don’t see your city here, try going to the local historical society to find an official date, then go to astro.com to cast the chart.**

If you know your own Sun sign, Moon sign, and Ascendant sign, look to see how you compare to your home state or city. Sun represents leadership and basic life force. Moon represents the people, emotions, and public attitudes. As a general rule, AIR signs (Gemini, Libra, and Aquarius) are compatible with FIRE signs (Aries, Leo, Sagittarius). WATER signs (Cancer, Scorpio, Pisces) are generally compatible with EARTH signs (Taurus, Virgo, Capricorn).

If you are compatible with the planetary energy of a particular location, it is much easier to enjoy your trip. Perhaps this explains why you can travel to a place that everyone loves, and you just don’t feel in harmony. For example, John Kerry lost Ohio in his failed Presidential campaign. Ohio has its Sun in Pisces, which challenges Kerry’s Sagittarius Sun, and Ohio’s Moon sign is in Gemini, which provides opposition to Sagittarius. Pisces can represent enlightenment or illusion, and there certainly seemed to be some illusion working at his failed presidential bid in Ohio. On the other hand, Kerry found Massachusetts with Sun and Moon in “open to innovative ideas” Aquarius to be a favorable location for his ideals.

If your natal Sun, Moon, or Ascendant are compatible with the Sun and Moon of locations listed below, you might enjoy a journey to one of these places. Of course, there are a variety of variables including the need to look at your entire natal chart before making a decision, your personal power lines in a location (see EARTHLINES™ information below), and the current transiting cycles that are affecting your natal chart when you travel. (Note: there is a **free astrology primer** to help you understand the basics of astrology-

Most of this information comes from these books. There are more cities and countries in:

- “Horoscopes of the US States and Cities” by Carolyn Dodson
- “The Book of World Horoscopes” by Nicholas Campion.

**USA** Cancer Sun, Aquarius Moon (Rising sign is most likely to be Virgo based upon historical reference; however, astrologers also use Sagittarius, Scorpio, Libra, and Gemini rising charts, and even dates different than 7/4/1776)

**Washington DC** 1791, Sun Pisces, Moon Cancer

(It is interesting to note in the book “The Secret Architecture of our Nation’s Capitol” by Ovason that astrology was used in setting the cornerstones of famous buildings like the White House. There is a strong suggestion based upon astrological symbols all over Washington DC that there is a strong Virgo emphasis. )

## Terms associated with Relocation Astrology

**Mundane Astrology:** Astrology is similar to the medical profession in that there are specialties within the larger field. A heart surgeon and a neurosurgeon are both medical doctors, but in different areas of specialization. Mundane astrology is a broadly defined topic that includes relocation, or locational, astrology. Mundane astrology deals with the astrological energy of countries, companies, world leaders, and world events (like the tsunami in SE Asia or the meaning of the next Mercury retrograde cycle for the greater collective of humanity.)

**Relocation (Locational ) Astrology:** This is the broadly defined topic within mundane astrology that studies personal power zones for individuals and companies on planet earth. AstroCartoGraphy® (ACG) or EARTHLINES™ are names for this service (just like Reiki and Yuen Energetics are names for different healing modalities.) AstroCartoGraphy® was commercially developed by Jim Lewis and shows known action zones for planets in your natal chart as mapped onto the earth. EARTHLINES™ is a trade name developed by Mark Dodich. It is a packaged service that includes ACG lines, moving lines called transits and progressions, Local Space, and more). The idea is that your natal chart is projected out onto the earth in known action zones of the chart. It is like what Hermetic philosophers would call “As above, so below.” You are projected out on a global level and certain energies are more powerful there than they might be somewhere else. The reason that accurate birth time is required is that this service uses the “angles” of the chart (Ascendant, MidHeaven, IC nadir, and Descendant)

**Relocated chart:** If you were born in New York and now live in San Francisco, your natal chart can be re-cast, or relocated, to pretend you were born in your new home. This does not replace your natal chart. It simply adds a differently flavored influence to your life experience. If you put on rose-colored glasses, it would not change what you see. What you see would simply be shaded differently. Generally speaking, you almost need to change time zones to change your chart to any significant degree.

**Local Space Astrology:** This is the locational astrology of movement. If you had your AstroCartoGraphy® chart done by a mail order service, you do not have this. There are a couple different ways to draw it. Mark Dodich uses a method that looks like the center of a bicycle wheel with numerous “spokes” going out in all directions. You use this map to pick a restaurant, locate personal services like a health club or tax advisor, or even to bop around Europe. The idea is that when you travel on lines that represent the energy you are creating, you are increasing the natural flow of energy that supports what you are doing.

**Location Transits and Progressions:** The lines on your primary AstroCartoGraphy® or EARTHLINES™ maps (s) are good for life. Of secondary influence are these moving lines that show you temporary energy in a location. If you had to choose between a trip to Denver or a trip to New York, you could look at your transiting and progressing lines to see which energy supports what you wish to accomplish when you go there. A Venus line might be best for romance or artistic ventures, whereas a Mars line would be better for running a marathon. A transit map is generally good for a month, longer for outer planets like Neptune and shorter for quick planets like the moon.

**Power Lines:** On your ACG or EARTHLINES, these are the vertical and curved vertical lines on the map. They are good for life, and considered to be strong 300-350 miles from the line. They are moderate to weak from 350-700 miles away.

**Paran Lines:** These are horizontal lines of latitude that represent subtle blending energies of two planets or asteroids. ACG calls them “crossing lines.” The lines are considered to be valid anywhere from 80-150 miles north or south of the latitude where they are located. So, if you are looking for a good place for relationship and have a major relationship Power Line in Moscow but no desire to live in Russia, you could find subtle paran lines that support relationships in a country that you would like to live in.

**Fixed Star Location Astrology:** The ancients were more focused on the stars in astrology than the planets. There is a full explanation of this on the Fixed Star page at [www.astromark.us](http://www.astromark.us) There is a method of mapping well-researched stars and putting them onto a regional map (USA, Europe). Mark Dodich’s research suggests

that the location of the fixed stars in your natal chart as well as on the maps are best understood by looking at your place in the larger collective. The stars help you go beyond your smaller issues of love, money, or that new car. They help you go beyond our local solar system to see the bigger picture in life. Although these maps are not a part of your EARTHLINES consultation, they can be purchased separately by mail order. See [www.astromark.us](http://www.astromark.us) Not available at this time.

**[www.astromark.us](http://www.astromark.us)**

**Where is the best place for me to be?** I want it all- romance, money, spiritual service, real chocolate with no calories, etc. Obviously, the answer is that you must go within to find that perfect place. Moving to different locations can give you a fresh perspective on life, it can help you get free of preconceived notions that others may have about you, and it can help you emphasize specific areas of your chart. However, you take your life lessons with you wherever you go. It is also important to be careful of making sweeping statements about particular power lines. While a Venus line may help you with your love and money, you must still work through any limiting beliefs about love and money. Going to a Venus line can amplify your need to work through those issues, but it will help you. You must also consider that if you have a gentle Venus line, but the Venus in your natal chart is harshly connected to death & destruction Pluto, then you are going to be required to release some belief or behavior when you go to that seemingly nice Venus line. Life is about spiritual growth and opening to the God within our Being. Picking the right location can help you open to certain aspects of your Divine Nature.

## **Seven Soul Ray Esoteric Astrology Consultation for spiritual purpose :**

This consultation is focused on spiritual purpose and service in this life. It is based on the work of Alice A Baily and the teachings of DK.

Read about it at [Astromark.us](http://Astromark.us)  
or check out the current quarterly newsletter;

[Astromark.us/newsletter.pdf](http://Astromark.us/newsletter.pdf)

My passion in life is to help people to connect with their soul path in the most dynamic way possible. **The Soul Ray reading is designed to activate a greater expression of your soul and spiritual service in your life.**

### ***What is a soul ray consultation?***

Essentially, the Seven Ray consultation is an astrology reading based upon the esoteric branch of astrology. Think of a multi-level chess board. Everyone operates on the physical earth school level. However, people who have moved beyond the need for personal ego gratification, knowing that they are here to grow spiritually and be of service to humanity, can access higher levels of that chess board to utilize more frequencies.

You will learn about your soul and personality rays. This information is based in the channellings of the

Tibetan Master Djwahl Kuhl and Alice A. Bailey. Visit: <https://www.lucistrust.org/>

Understanding the rays upon which you have incarnated helps you to work more fully with your energies of soul service. This reading is best for people who have reduced the need to ask "what's in it for me?" and increased the need to know, "what is my soul purpose and spiritual service in this life?"

By choosing to experience this reading, you are calling upon your soul to express an increasing manifestation of the Divine Essence in your life. You are choosing to step into higher levels of soul service.

**This is an excellent tool for those who are shifting out of attachment to the material world in the direction of soul service. It's time for each of us to take increased responsibility for expressing our Divine Nature in our daily lives.**

This 90 minute consultation includes current transits, progressions, and if it is near your birthday, the solar return forecast. [Fairly accurate birth time is needed for this consultation.](#)

**Periodic updates** of 60 or 30 minutes are available after you have had the Seven Ray Consultation. We typically look at changing cycles called transits and progressions
