## Planetary Shifts of 2020

**Your life will never be the same!**

2020 includes a rare near alignment of heavy transformational planets in restructuring Capricorn. There are six eclipses, which is a high number (7 is maximum) They bring inner depths to the surface to restructure your life to prepare for new adventures. Spiritual destiny nodes of the moon change signs to adjust your life path for the next 1 1/2 year. Relationship planets Venus and Mars both turn retrograde this year, helping you to revise and take action on shifting all types of relationships. We also get an Aquarius teaser to prepare us for 2021.

Pluto, Saturn and Jupiter are traveling very close to each other all year. This is very rare and it all happens within about 12 degrees of the zodiac, from 18° Capricorn to 1° Aquarius.

### Triple alignment dates in 2020:

**Saturn—Pluto: Jan. 12, 23° Capricorn**

**Jupiter-Pluto: April 4, June 30, Nov. 12  
23-25° Capricorn**

**Jupiter-Saturn: Dec. 21, 1° Aquarius**

Think back to the last time these planets were in restructuring for the long term Capricorn:

248 years ago: Pluto in Capricorn (1772-1768, 1516-1532) the Declaration of Independence, Martin Luther Protestant Reformation

29 years ago, Saturn was in Capricorn Feb 1988-June 1988 & Nov. 1988-Feb 1991; Jan. 1959-Jan. 1962

12 years ago, Jupiter was in Capricorn 12/18/07-1/5/09, 1/4/96-1/21/97 , 1/20/84-2/6/85

### Esoteric View of the Triple Alignment:

Capricorn is associated with Rays 1, 3 and 7: Ray 1 cleanses everything that gets between you and Creation, so that when you use your power, you do it directly connected to Creation. Lessons in aloneness v. loneliness. Ray 3 translates higher esoteric and abstract thought into a language that all can understand. You learn to speak in a way that others can hear you, no judging. Ray 7 is energy alchemy where you transmute lower frequencies into higher vibrations. Saturn is tied to Ray 3; Pluto to Ray 1. Jupiter is tied to Ray 2 of unconditional love and wisdom.

In 2020, you have the opportunity to step into a higher vibration and help the world do the same. See through the outer personality crust of people to connect with their divine source. Communicate higher truth to them in a way they can hear it. Increase the energetic frequency of Light by transmuting energy using a tool such as the violet flame.

### A peek into the future Aquarius 2021 ≈

March 21-July 1: Saturn tests Aquarius, then returns to Capricorn until it fully moves into Aquarius on Dec. 17 to March 2023. This gives us a peek ahead into what's coming. Government regulation of the internet and social media. Increased commercialization of outer space (and we just formed the "space force.") Robotics increase, and more displaced workers start a home based business. The Jupiter—Saturn conjunction on Dec. 21 occurs about every 20 years. It is a transition between the old and the new, and the ability to bring big ideas down to work in the mundane world.

**New Solar Cycle:** Contrary to recent information suggesting that the sun is staying at solar minimum, new sunspots of a reverse polarity indicate a new 11-year solar cycle is beginning. Unverified metaphysical thought is that sun spots shooting towards the earth and shaking the atmosphere similar to an MRI machine, activate the pineal gland (intuition).

## Mercury, Mars & Venus

### Retrogrades 2020:

#### ♿ Mercury: Feb. 16-March 9

13° Pisces back to 28° Aquarius

Re-visioning your ideals. Bring intuitive higher vision into the world to create win-win environments for the collective good.

#### ♀ Venus: May 13-June 24, 21° back to 5° Gemini

Communicating and/or restlessness in relationships. 5th Ray healing and creating better beauty. A good time to explore new relationships of all kinds, but don't hold expectations as this is better for exploring than committing.

#### ♿ Mercury: June 17-July 12, 15° back to 25° Cancer

Issues surrounding home, family, real estate, food. This can include family reunions, home repair, getting ready to buy or sell property, and diet.

#### ♂ Mars: Sept. 9-Nov. 13, 29° back to 14° Aries

Preparing to pioneer a new path. Reviewing your ambition. Communicate right action. Create a behind the scenes "battle plan" for your next project. Exercise. Heal anger issues or give extra space to angry people.

♿ Mercury: Oct. 13-Nov. 3, 12° Scorpio back to 25° Libra; Deep emotional healing and going to deeper levels in relationships by being willing to be vulnerable. Great for research projects. Communicate directly but practice diplomacy (be a velvet covered hammer!)

Know that there is a shadow period before any retrograde where you get a hint of what is coming so you can prepare. There is another shadow period at the end where you are cleaning up any messes made during the retrograde and preparing to enter fresh territory. Estimate 2 weeks for Mercury, 4-5 weeks for Venus, and 6-7 weeks shadow period for Mars.

Retrograde dates for all the planets are at the website: [astromark.us/upcoming-mercury-retrograde-cycles/](http://astromark.us/upcoming-mercury-retrograde-cycles/)

## Spiritual Destiny Node's of the Moon

Cancer North Node-Capricorn South Node

Nov. 6, 2018-May 4, 2020 Water-Earth

Previous times 4/10/2000-10/13/2001

9/26/81-3/16/83; 12/24/62-8/25/64

Gemini North Node-Sagittarius South Node

➔ May 4, 2020-Jan. 18, 2022 Air-Fire

Previous times 10/14/2001-4/14/2003

3/17/83-9/11/84; 8/26/64-2/19/66

The nodes are mathematical points representing intersection points of the orbit of the moon around the earth and the earth around the sun. You move from the South Node to the North Node. They are moving from security oriented Cancer and Capricorn into idea and adventure Gemini and Sagittarius. Where Cancer and Capricorn tend to practical matters close to home, Gemini and Sagittarius are open to new experiences and fresh ideas.

They start at 30° and count down to 0 in your natal chart. The houses containing Gemini and Sagittarius in your chart show you the area of life that is being opened to new ideas and adventure.

## Super Moons in 2020

March 8, April 7 & May 7

Emotions are heightened. Mercury ends a retrograde cycle on March 8/9 so that adds emphasis to the March super moon.

## Mandala of Saturn and Pluto

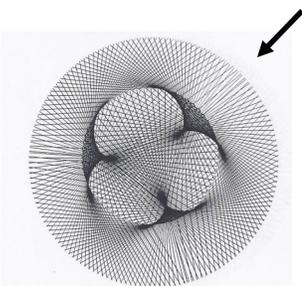

Feb 27, 1915-July 6 2049

From Tables of Planetary Phenomena by Neil Michelsen

The drawing is a computer generated graph showing the pattern the orbits of Saturn and Pluto create in relation to each other as they travel through the sky. I find that this helps show a greater energetic field rather than just imagine them going around the sun in an elliptical orbit. Below is a graph for the orbits of Jupiter and Saturn

## Mandala of Jupiter and Saturn 1901-1960

**♄ Saturn represents** structure, discipline, sacrificing in the short term for the long term good. In the body, it is associated with bones, skin, teeth and hair. Saturn brings rewards when you make a long term plan and are willing to work at future goals. In spiritual astrology, it is the planet that helps initiate you into a higher frequency of vibration, but you must be ready before going there. It is associated with the Third Ray of communicating esoteric knowledge into a language that all can understand. (See ray explanations at [www.astromark.us/soulraydefined.htm](http://www.astromark.us/soulraydefined.htm))

**♇ Pluto represents** standing in your power. It requires you to let go of that which you no longer need in order to be powerful. Transformation and regeneration are Pluto words. In the body, Pluto is associated with the elimination system including lower colon. In spiritual astrology, Pluto is First Ray energy which destroys anything that gets between you and your God source, thus allowing you to use your power in the world based upon a connection to your divine essence. It helps you to be in Oneness, but anything that gets in the way of that must be released.

**♃ Jupiter represents** your belief system. He is the god of abundance and helps you manifest your dreams and desires. However, you must expand your belief system and take a risk on yourself. The universe is here to help you, but you must show your intent by initiating the necessary action to achieve that goal, and to do so without a guarantee or expectations of a specific result. He is a coach, mentor, minister and sales manager. He travels, publishes and speaks higher truth without the need for approval.

## Find the sign Saturn was in when you were born

Locate the date you were born on this table taken from "Planetary Phenomena" by Neil Michelsen The line above the date when you were born shows Saturn entering a sign and staying in that sign until the date below your birth date.

If there is a ♄, Saturn was Retrograde in your chart. Saturn spends almost five months retrograde every year, so it is quite common. Consider how you deal with boundaries, discipline, patience and other Saturn traits if you have Saturn retrograde.

If you were born within one day of when Saturn changed signs, you will need to verify by computer which sign Saturn was in.

www.astro.com will give you a free birth chart.

Combine the meaning of the sign with the meaning of Saturn to get a basic understanding of how they combine, then look at the house Saturn falls in in your natal chart for added meaning.

Saturn represents structure, patience, sacrificing in the short term for long term gain. It has to do with government, big business, politics, and serving a large good in the world. When Saturn is active in a chart, you are restructuring some foundation in your life. Although Saturn can be slow and tedious, it brings rewards when you are willing to put forth disciplined, long-term efforts towards your realistic goals.

When you are approximately 29, 58 and 87, Saturn returns to its original position in your birth chart. This Saturn Return represents a significant shift in life's priorities.

Zodiac Signs:

Aries ♈ : pioneering, spontaneous

Taurus ♉ stable, builder

Gemini ♊: communications, versatility

Cancer ♋: receptive, nurturing

Leo ♌: pride, leadership

Virgo ♍: analytical, service

Libra ♎: balance, relating

Scorpio ♏: intimate, intense

Sagittarius ♐: adventure, philosophy

Capricorn ♑: responsibility, striving

Aquarius ♒: independent, humanitarian

Pisces ♓: intuitive, compassion

## The Moon's Nodes

In ancient days, the main purpose of astrology was to live in harmony with the Universe. One method was to understand the cycles of our closest "planet," the moon. Sensitive points, called the *nodes of the moon*, where lunar and earth orbits intersect are calculated to better understand your soul path.

Locate the cell containing your birth date in the columns below. The astrological sign to the left of your birth date is the sign your North Node was in when you were born. The North Node represents soul destiny. The characteristics of the astrological sign indicate the traits you need to develop as a part of your soul destiny. To the right is the sign of your South Node at birth. The South Node shows both talents and challenges you have to reach your North Node. Knowing the meanings of the signs will help you know what you wish to release (South) and what you wish to achieve(North). If you know your natal astrology chart, the house placement of the nodes will tell you where to do this work. Please keep in mind that the moon's nodes are but one aspect of understanding soul purpose. There are numerous variables including relationships to other planets at birth, current life cycles, and soul rays, to name just a few. The purpose for providing this information is to stimulate you to bring forth the love, power, and inner knowing that is a natural part of your Divine Nature.

## Something to remember in 2020:

Given that emotions are going to be very high in 2020, the information below is more relevant than ever. Many people have strong opinions on USA elections, Brexit, refugees leaving war or crime-poverty violence regions, serious climate change, etc. There is no doubt the problems are large and views on how to fix them are diverse, but we must remember that we all come from the same source. Before we go into judgement of others who think differently than us, we must remember that they are a part of us.

*I wish you peace, joy and deep inner fulfilment as we raise our consciousness on a planetary level in the new year. May you see how beautiful you really are. ~ Mark Dodich*

### "Peace & The Law of One "

The Law of One recognizes the interconnectedness of all Beings. Because we are all created from the ONE SOURCE, our souls and physical bodies emanate from that one universal life force. This means that a person suffering far away in the Syria is an outer representation of that which is going on within each of us- because they are a part of us at the Source. A tsunami disaster in Sumatra reverberates throughout the world because it quakes at the core of Creation. It is like a cosmic spider web. When the web is touched in one place, the spider feels it everywhere along the web.

In terms of our topic of peace, when one person or group is working on inner peace, it helps calm the vibration of non-peace on an outer planetary level and throughout Creation. In this time of great transformation on planet earth, it is easy to get lost in the pain of our personal suffering. Sometimes it is difficult to see the suffering elsewhere because of our own suffering, much less understand why it is going on at all.

If you recognize and consciously remember that we are all connected at the Source, and that the actions in one place have an effect on all others places, dimensions, and realities, then you can understand that your thoughts and actions affect the whole of Creation. Post "the Law of One" in a place that you can see it. Read it aloud at least 7 days in the next month. When some life situation presents problems, be it getting cut off in rush hour traffic of some major life event, remember that we are all One. Bless the situation, bless the frustration, bless those involved. You are really blessing yourself and holding the vibration of peace.

## The Law of ONE

We are all ONE.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of my Being

Which is ONE with all there is

And is All Powerful and All Loving

And is ONE with all the Masters

And with the Christ,

I ask for that which is for the Highest Good  
of All concerned to happen here.

On the Physical Plane, the Greatest Beauty

On the Emotional Plane, the Most Profound Joy

In the world of the Mind,  
the greatest Illumination

And in the Spirit, Unity.

I offer thanks that this is done.

The purpose of the *VIOLET FLAME* is to help you experience greater frequencies of your essential soul vibration in your daily life. The Violet Flame is a method for transmuting (raising) lower vibrations into the energy of Light.

### TRANSMUTATION

Here is the way I do it, or adapt to your own style.

- 1) Do protection prayer. Call in St. Germain, Ascended Masters, your guides & healers, or whatever form of Love and Light works for you.
- 2) Set Conditions (I like to say that this is for the Highest Good, which means that it is for the highest good of everyone)
- 3) Set Intent of your objective. (Ex: I raise my vibration to that of God/Creation)
- 4) Invoke (call in) the Violet Flame. Surround and enfold yourself in the burning Violet Flame. We transmute darkness into Light
- 5) Feel how good it is to be working in the situation in its highest form. (This is important. Take the time to really get the feeling of what you are bringing into manifestation: healing, right relationship, prosperity, etc.)
- 6) Give thanks. Release the Violet Flame and those who have helped.

It is done. Live in your new Truth.
