Quarterly Astrology Forecast for Summer 2025

Summer Astrology Forecast

Preview of coming attractions in 2026

Western hemisphere's summer energy is giving you a taste of what is coming in the future. This provides the opportunity to try out new ideas, people, and locations while completing that which you are ready to release.

Saturn and Neptune have recently entered "it's time for something new" Aries (See page 9) and planet of chaos and change is about to move into Gemini (See right column). It's time to get out of your too comfortable rut. The summer solstice chart (Page 6) provides help with emotional release as the feeling oriented moon challenges *burn your bridges* Pluto.

Ambitious Mars pushes you to get ready. The warrior was stuck in Leo and Cancer for over six months due to his retrograde cycle late 2024-early 2025. He travels through hard-working Virgo June 17-August 6.

This combination feels better when you accomplish tangible tasks and check things off your list. Virgo likes to make your life simpler. Get organized and stop wasting time or thoughts on aspects of your life or people that are non-productive.

Although this sounds like a task-filled summer, know that Mercury retrograde in Leo starting July 17 likes to have fun and relaxation. (See page 3). Find a balance between your brain that wants to get things done and your emotions that need a break from the world.

Uranus Enters Gemini

Were you hoping the pace would slow down?

Not likely!

Uranus is the planet of revolution, innovation, insurrection, aerospace, entrepreneurship, and technology. The eccentric god is associated with hurricanes, tornadoes and earthquakes, *Oh My!*

Beginning 7/7/25-11/7/25, god of the sky Uranus makes his initial step into Gemini before returning to Taurus where he has been since 2018. He will fully bring his "expect the unexpected" changes into Gemini April 2026 through early 2033.

Communications, education, travel, writing, and traffic are all changing. We have already seen hints of what is coming with self-driving cars, wealthy people traveling to space, and new communications tools such as Substack.

The previous times Uranus was in Gemini, roughly 1941-1949 and 1858-1866 brought World War II, the atomic bomb (Uranus combined with Pluto), and the Civil War. Basically, the United States were split in two (Gemini =twins, Uranus = Revolution).

The 1947 UFO sighting in Roswell, NM occurred. Will other worldly beings decide we are ready to meet them?

A good example of how Uranus can work in a natal chart is the current USA President. He was born with his Gemini Sun aligned with Uranus in Gemini. He takes pleasure in flaunting the USA Constitution and laws. His moon in Sagittarius likes to do so in typical Sagittarian big ways. Gemini's can be good at distracting or changing the subject.

(Astrology Report continues from page 1, column 1)

It will be interesting to watch the July 4th holiday because Neptune turns retrograde at the same time Venus enters talkative Gemini. Neptune is reclusive and wants to avoid the noise and hoopla of the holiday, while Venus in Gemini wants to share and participate in everything.

Venus travels through Gemini July 4-30. On the earthly level, this is a highly social combination. It would also like to take a short trip to someplace beautiful. It is open to romance, but can also be flirtatious and non-committal.

On the spiritual level, Venus is very happy in Gemini because it brings Ray 5 healing and beauty through Master Hilarion and Archangel Raphael.

Rays explained pdf document:

<https://astromark.us/seven-rays-explained.pdf>

From July 30-August 25, Venus will be in nurturing Cancer. This is a feel good energy where you want to spend time with family or those in your comfort zone. Perfect for a barbeque. Home improvement projects are favored, especially kitchens or the room you just want to be comfortable in.

As a side note, Venus and Jupiter align on August 11-12 when Mercury is ending his retrograde cycle. This is a lucky combination as long as you don't overdo things. That means one lottery ticket is enough if it is your turn to win. Also, a good time to avoid a buffet restaurant as Jupiter believes more is better.

Although I prefer to take the higher, more positive perspective on planetary alignments, we can't pretend it is all Pollyanna. Aggressive Mars is in his least favorite sign, Libra, August 6-September 22.

He will be making challenges to restrictive Saturn and space-cadet Neptune at the Aquarius full moon on August 8-9. **Simply put, this is not a time to force emotional issues.** Compromise without sacrificing yourself. Unfortunately, this full moon will not help you watch the annual Perseids Meteor Shower August 11-13.

Overall, the coming quarter can be fun if you are willing to explore future options and be open to change. Plant seeds within yourself for new opportunities that will have more momentum in 2026. By the autumn equinox newsletter, the tone will change towards completing the past and eclipses bringing hidden emotions to the surface. For now, have a quick adventure or learn something new.

(Uranus in Gemini continues from Page 1)

On a personal level, Gemini is a restless, "grass is greener on the other side of the fence" sign.

Numerous clients have told me they are selling their possessions or putting them into storage to live lighter. Some are purchasing a RV and plan to hit the road. Gemini is curious and likes to explore in short and quick ways, always on the move.

2025 stimulates a feeling of discontent within you. Somethin's gotta change!

Uranus, Neptune, Saturn, and Jupiter are all moving into new signs this year, and Pluto is fairly new to revolutionary Aquarius. Because they are all at the beginning of their respective signs, people lack clarity on what that change is going to be.

Uranus in Gemini suggests you explore a wide variety of options before "betting the farm." Do some short test trips and classes to determine how those places or activities feel. That includes trying out some new friends, groups and organizations. Where is your new tribe, or do you need to make adjustments to your current circle?

Is it time to write that book, start a Substack blog, or improve your communication skills? You are definitely going to need to upgrade your technology and skill set in the next seven years.

Gemini has to be careful of impulsively speaking or shooting off that text or email that they cannot take back. Gemini must avoid telling people 80% of the truth and leaving out the uncomfortable 20%. If you have ever held something back that needed to be said in a relationship, you know you paid a bigger price when the hidden part actually came out.

Whatever words we utter should be chosen with care for people will hear them and be influenced by them for good or ill. ~Buddha

Uranus is the sacred planet to Ray 7. This is the universal energy of transmuting lower frequencies into higher vibrations. The Violet Flame is a tool of transmuting energy. On the esoteric level, Uranus helps revolutionize people's values so they can live in a higher balance.

<https://astromark.us/seven-rays-explained.pdf>

Gemini's esoteric service is as a healer through sacred planet Venus. Bring beauty into the world and open hearts through Ray 5. Master Hilarion and Archangel Raphael are healers of Ray 5.

In summary, get ready for change. It's imminent!

If you do not change direction, you may end up where you are heading. ~Lao Tsu

If you don't like something, change it. If you can't change it, change your attitude.

~Maya Angelou

Mercury Retrograde

July 17-August 11, 16°-4° Leo

Although many people groan when the communications planet gives the illusion of moving backwards in the sky, the cycle has advantages.

Leo likes to have fun. Use this period to retreat from your busy world. Leo is highly creative.

Take your journal with you. Write down goals and ideas that your heart can get behind. Leave the practical judgement voice (that will never work!) behind for now.

A sacred Sabian Symbol for the degree of this retrograde is "the storm ended, all nature rejoices in brilliant sun shine." Find your own meaning in this symbol. But it certainly sounds like it is time to open your heart to the sun's life-giving manna.

Esoterically, Mercury is the sacred planet of Ray 4, keywords *harmony through conflict*. The key is to live in your center in spite of outer world chaos.

Make time for what your heart wants.

It is only with the heart that one can see rightly; what is essential is invisible to the eye. ~French Author Antoine de Saint-Exupery

Jupiter Exalted in Cancer

On June 7, generous Jupiter moved into Cancer until July 2026. Cancer is associated with security, child-birth, nutrition; and on the collective level, tending to the needs of the people.

The last time Jupiter was in Cancer (6/2013-7/2014), Pope Francis was elected, Edward Snowden was caught in a security leak, and Oregon Health and Sciences produced an embryo cloning technique.

Jupiter passing through Cancer is auspicious. Astrologers call that combination *exalted* which means creative and supportive. Many people will move or fix up their home. Domestic travel increases. Jupiter rules natural resources, so hopefully people will speak up against policies that are anti-environment.

Food and nutrition are a part of Cancer, and Jupiter is associated with international, cultural and philanthropical activities. Hopefully food will be able to make it into places such as Gaza. Because the current USA administration has cut out compassionate help to starving people, it is important that individuals donate to the nourishment of those in desperate need. Because we are all one at the Source, helping others is in our own best interest. Check out World Central Kitchen. <https://wck.org/>

Lunar Eclipse Sept 7, 16° Pisces

The new and the old.

This is the longest lunar eclipse since 2002. Watch for news from the path of the eclipse in India, Pakistan, China and Australia.

<https://www.timeanddate.com/eclipse/lunar/2025-september-7>

Pisces asks you to open your intuition to a higher vision. It practices compassion and forgiveness. At the same time, the sun is in Virgo asking you to be humble and simplify your life. It's time to de-clutter.

There is old energy in that Saturn has temporarily, moved retrograde into Pisces where it has been since summer 2023. Neptune will also move back into Pisces next month, where it has been since 2011. It's time to finish something and let go.

You can only lose what you cling to. ~Buddha

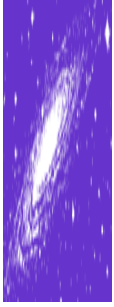

Also in the chart of this eclipse is revolutionary Uranus in idea-sign Gemini making harmony to transforming Pluto in Uranus's favorite sign, Aquarius. This is clearly pulling you in a new direction while Saturn and Neptune are pushing you to complete the past. You may feel like a yo-yo in the three months surrounding this emotional eclipse.

There are far better things ahead than any we leave behind. ~ C.S. Lewis

There is help available. The moon makes a harmonious trine to optimistic, expansive and abundant Jupiter in nurturing Cancer. Jupiter helps if you are willing to expand your belief system beyond limited thinking. He requires that you have faith in yourself and take a risk on you. The god of thunder tells you that you must speak truth, and not expect others to approve of you. Open to your abundance.

The Sept. 21 solar eclipse at 30° Virgo will be explained in the fall equinox quarterly Astro₃

7 RAY SOUL PURPOSE ESOTERIC ASTROLOGY for Pope Leo XIV

9/14/1955 , Chicago, Virgo, Moon in Leo or Virgo, Ascendant unknown

A soul ray is a universal frequency that each person incarnates on to provide opportunities for growth and service in this life. Your zodiac sun sign is of our solar system and has to do with personality. A soul ray is Universal in nature. It helps you accomplish life purpose in this incarnation.

All of Pope Leo XIV natal planets are closely packed together within a *temperament type* astrologers call a bundle. People with this pattern tend to be focus on a narrow view of life. They specialize in whatever they choose to do and are quite good at it. However, bundled chart people often ignore ever thing else.

He is strong in Rays 2 and 6. Even numbered rays are more feminine and receptive. Ray 2 is the energy of unconditional love and seeking wisdom. Part of their work is to see through the outer crust of people's personality to connect with the divine spark of who they really are beyond the outer ego.

The 2nd ray is associated with Gemini, Virgo and Pisces. Virgo's want to be of service. Ray 2 people are very much the healer, but they do so by helping people remember who they really are.

Ray 6 keywords are devotion and idealism, and associated with the signs Virgo, Sagittarius and Pisces. Ray 6 people focus on the higher ideal and allow nothing to get in the way of reaching that ideal. However, they must see through false gurus and remember to "stop and smell the flowers" along the way to that goal. Illusions get burst as part of the enlightenment process. They work in partnership with Great Spirit to bring a higher vision into the world.

Assertive Mars moves through Virgo June 17-Aug 6 for everyone, and activates the new Pope's natal Mars, Sun, Venus and possibly his moon during this time period. Pay attention to what he asserts into the world at this time because it may very well be an indicator of what is coming when expansive Jupiter moves through his bundled chart for several years beginning in the summer of 2026.

Between spring 2025 and February 2026, transiting Saturn and Neptune make harmony with revolutionary Uranus in Leo in Pope XIV's chart. (See page 9)
He will be a pragmatic revolutionary for those on his path.

Seven Ray Esoteric Astrology Consultation This consultation is for existing clients only.

Esoteric Astrology is the branch of astrology that seeks to help people understand and accentuate spiritual growth and service. Think of it like a multi-level chess board. Everyone operates on the base level of earth school, but those who know they have incarnated to be of higher service can move between base and higher levels.

The consultation includes your personality and soul rays. The personality ray helps you manage the mundane aspects of planet earth. Your soul ray helps you activate greater personal meaning through spiritual growth and service. There are also sub rays to help you step into the fullness of your service in this incarnation. This work is based upon the teachings of Master Tibetan disciple Djwal Khul (DK) and Alice A Bailey.

As you increase your awareness of what your soul came to do, you place greater focus on your own spiritual growth. This helps you raise your own frequency which gives you greater tools to help your life move more smoothly through earth school

The consultation includes an esoteric look at your natal chart along with all the transiting and progressing cycles going on now and in the incoming months. \$220/ 90 min.

PERIODIC UPDATES to the changing cycles in your chart are available after the Seven Rays consultation (Including birthday year chart if it is near your birthday). They are usually 60 minutes, although 30 and 90 minutes are also available.

This page is offered to address the spiritual growth side of current astrology from the esoteric point of view. Or, a metaphysical topic of interest this quarter or whatever catches my attention.

THE PRINCIPLE OF CAUSE AND EFFECT

There is no such thing as coincidence.

At some time, everyone has wondered why some event or person has come into their life. It is common, but inaccurate, to think someone is doing something to you. After decades of working with people, it is clear to me that we create our own reality.

From The Kybalion by Three Initiates: **VI. THE PRINCIPLE OF CAUSE AND EFFECT**

"Every Cause has its Effect; every Effect has its Cause; everything happens according to Law; Chance is but a name for Law not recognized; there are many planes of causation, but nothing escapes the Law"

Everything happens according to Universal Law, and nothing ever merely happens. There is no such thing as coincidence, or chance. The Hermetists understand the art and methods of rising above the ordinary plane of Cause and effect, to a certain degree, and by mentally rising to a higher plane they become Causers instead of Effects. They play the game of life instead of being played and moved about by other wills and environment. The Masters obey the Causation of the higher planes, but they help to rule on their own plane.

From Arnold Patent, Universal attorney: **Principle 4. There Is Nothing Outside Of Us**

In order to have our human experiences, we have created the apparent reality that we are living outside the Oneness; that there are things and people that can affect us without our consent. **The truth is that there is nothing outside of us; all that we see is our Self.** This becomes our new reality when we open the belief in separation and accept the truth that we are One.

<https://www.arnoldpatent.com/universal-principles>

Everyone who comes into your life, be it in a meaningful relationship, the grocery store check out clerk interaction, or casually doing a quick fist bump at the gym, is some reflection of you. It is common to look for *why did this happen to me?*. There is no easy answer because it is impossible to see all the actions that came into creating that meeting or event. You can't see the person that threw the rock in the water on the other side of the lake, but you do experience the ripples that came from that action.

What you do with what comes into your life is your responsibility. Blues great Robert Johnson's wife and baby died in childbirth. He turned his back on God because *what kind of a God would do such a thing!* He went on to become one of the most famous blues musicians. (It is a myth that he sold his soul to the devil to be the best guitarist). What you do with what/who comes into your life is important.

A topic like this can be discussed until the cows come home. **Understand: Whatever comes into your life, be it good or bad, you created it.** You can make yourself crazy trying to figure out why, but you can never really know all the actions that went into the event.

Personally, I like to look for the good or the teaching in who or what comes through my life. I do my best not to judge it. As many readers know, I have been dealing with serious knee pain. It would be easy to blame being overweight, skiing moguls, or youthful athletics. The "why" doesn't matter. The pain has taught me to be more compassionate with slow people. It has motivated me to lose weight and get in shape. I am learning to walk mindfully instead of always being in a hurry.

Take responsibility for whatever and whoever comes into your life. Then, find the blessing in it. That which goes on in your outer world is but a reflection of your inner world.

A chart cast for the next three months:

Summer Solstice includes two Y-shaped patterns called a Yod. Think of a Yod as a divining rod where you hold the two handles in a soft harmony relationship to each other, then uncomfortably drive to the pointed end of the Y.

The **red Yod** has harmony between assertive Mars ♂ in service oriented Virgo and generous Jupiter ♃ in nurturing Cancer. Mars urges you to take action and Jupiter pushes you to expand your belief system to take a risk on yourself. Both drive "let go and let god" Pluto ♇ in innovative Aquarius.

The **blue Yod** has harmony between transforming Pluto ♇ in freedom-loving Aquarius and visionary Neptune ♆ in psychic Pisces. Saturn ♄ is also involved here so expect to put effort into long-term projects rather than seeking immediate gratification. Saturn and Neptune are attempting to work together from May 2025 through February 2026. Pluto, Neptune and Saturn all drive action planet Mars ♂ in Virgo. Take action to bring your higher vision into form by re-inventing yourself.

A yod pattern is not bad, but it does nag you to do something based upon the planets and signs involved. Mars and Pluto are in both patterns, making them of added significance.

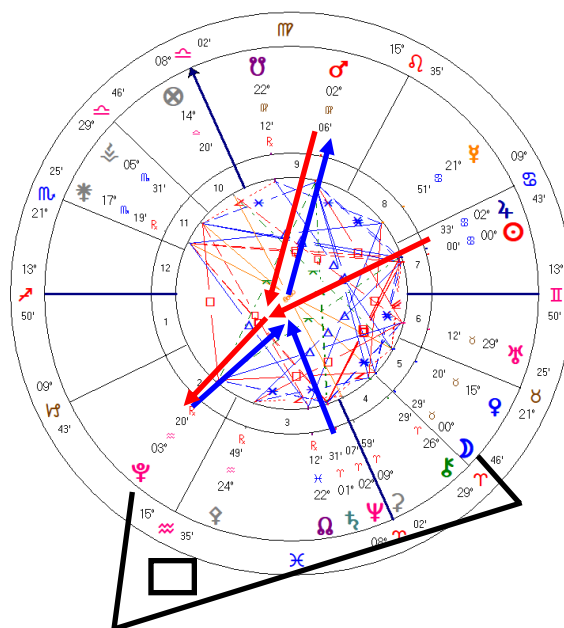

Mars in Virgo pushes you to get organized and simplify your life. This is a hard-working energy which produces tangible results for your efforts. Pluto in Aquarius tells you it is time to let go of the past and begin moving in a new direction.

Complicating the energetic picture is the moon ☾ making a challenging (motivating) 90-degree square ☐ to Pluto ♇. That means your emotions including the emotions of the people in your life are highly activated.

Although this complicated energy for the coming months may have you feeling annoyed, know that it is helping you to get moving on the development of the new you.

The Saturn and Neptune articles were in the spring Astromark newsletter. They are added here because they now begin their dance together in Aries and Pisces until they finally align exactly in February 2026. I have also added the esoteric ray info at the bottom.

Saturn entered Aries on May 24

It's time to assertively put energy into long-term goals. Beginning May 24 until September 1, Saturn makes a temporary entrance into aggressive Aries. Then, the planet of "restructuring your life" returns to Pisces to finish old business from the past two years.

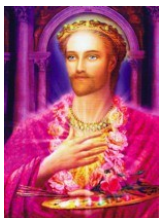

This tells you to get ready for his full run in courageous Aries February 2026-April 2028. Look back to the life changes the last time Saturn was in Aries April 1996-March 1999. The International War Crimes Court was founded in The Hague and the Iraq disarmament crises took place. In 1967-69, the Viet Nam war and protests were going strong. Robert Kennedy was assassinated.

Although people tend to groan when they hear disciplinarian Saturn is active, they forget that Saturn produces long-term rewards. It's just that Aries requires you to put a lot of ambition and effort into projects that require plenty of time to manifest. **Your new mantra: Assertive patience.**

Saturn is the sacred planet of Ray 3.

This is the energy of abstract thought and esoteric knowledge.

The goal here is to translate higher concepts into a language that all can understand. Practice nonjudgement by speaking in a way your audience can understand and in a quantity that they can handle.

Paul the Venetian is considered to be the leader of this ray (Chohan), and Archangel Chamuel is the messenger.

Neptune entered Aries on March 30

The last time Neptune was in Aries, the Civil War was going on. You could easily say that a civil war is currently going on in the USA, along with Sudan, Myanmar, Sudan, Ethiopia, Kashmir and Somalia to name a few.

Neptune, at its best, holds higher ideals for the world. Owning slaves was the big issue the last time Neptune was in Aries, 1861-1874. Neptune asks you to choose between the spiritual ideal on the high side and being a martyr on the low side. Do we hold the higher ideal for the Palestinian people or deny their right to a home? Do we sacrifice Ukrainian people?

From March 30 to October 22, Neptune teases us as it briefly moves into Aries, before returning to finish old business in Pisces since 2011. In late January 2026, Neptune moves into Aries until 2038. You are now receiving a hint about possibilities for your life.

During the next several months it would be beneficial to create a vision board or go off on a vision quest. Aries tells you it is time to pioneer a new path. The god of war wants you to step out of your comfort zone. Have courage and self-confidence to allow the new you to come forth.

Neptune has been at the final degrees of Pisces over the last two years, and that means the old world has been dissolving away. People used to say that life in New Orleans was upside-down. Now, the whole world is upside-down. It is the responsibility of everyone on the planet to bring forth the higher vibrational side of Neptune in Aries *-and remember, you volunteered to incarnate at this time!*

Only those who will risk going too far can possible find out how far they can go.

~ TS Elliot

Neptune is the sacred planet of Ray 6.

This is the energy of devotion and idealism

Ray 6 helps you focus on the goal, allowing nothing to get in the way of reaching the goal. However, you must remember to *stop and smell the flowers* along the way.

The idea here is to go into the etheric realm to create your higher vision, and then work in partnership with Great Spirit to manifest that vision in the mundane world. Illusions can be burst along the way.

Lady Nada is considered to be the leader of this ray (Chohan), and Archangel Uriel is the messenger.

Keep calm and serene, knowing:

"God is the only intelligence and power acting in your world and affairs"

I AM in you, is the self-sustaining strength and healing, manifesting in your mind and body. This keeps you in greater attunement. Face God! And the energy always surges forth to command every situation. Individuals who understand this law are not subject to injustice and the conditions which the outer selves of other beings try to impose upon them.

~Saint Germaine Series, Volume 3, page 14

Every man and woman in the new era has an individual two-fold mission —the transmutation of his own discordantly qualified energies of the past, and the conscious control and mastery over the use of his or her life in the present.

This is the balance required by the Chela of the Seventh Ray. The few (who are beyond personal karma) assume the responsibility, opportunity, and obligation of utilizing the power of transmutation on behalf of their race, nation, and planet.

SG1

It is upon these few that we depend for a planetary redemption these years allotted to us by the "Cosmic Law" to make all things new.

Are you among these few?

Seven Ray Esoteric Astrology Consultation

My passion in life is to help people to connect with their soul path in the most dynamic way possible. **The Soul Ray reading is designed to activate a greater expression of your soul and spiritual service in your life.**

What is a soul ray consultation?

Essentially, the Seven Ray consultation is an astrology reading based upon the esoteric branch of astrology. Think of a multi-level chess board. Everyone operates on the physical earth school level. However, people who have moved beyond the need for personal ego gratification, knowing that they are here to grow spiritually and be of service to humanity, can access higher levels of that chess board to utilize more frequencies.

You will learn about your soul and personality rays. This information is based in the channellings of the Tibetan Master Djwahl Kuhl and Alice A. Bailey. Visit: <https://www.lucistrust.org/>

Understanding the rays upon which you have incarnated helps you to work more fully with your energies of soul service. This reading is best for people who have reduced the need to ask "what's in it for me?" and increased the need to know, "what is my soul purpose and spiritual service in this life?"

By choosing to experience this reading, you are calling upon your soul to express an increasing manifestation of the Divine Essence in your life. You are choosing to step into higher levels of soul service.

This is an excellent tool for those who are shifting out of attachment to the material world in the direction of soul service. It's time for each of us to take increased responsibility for expressing our Divine Nature in our daily lives.

This 90 minute consultation includes current transits, progressions, and if it is near your birthday, the solar return forecast. Fairly accurate birth time is needed for this consultation.

Periodic updates of 60, 30 or 90 minutes are available after you have had the Seven Ray Consultation. We typically look at changing cycles called transits and progressions

Corruption: Another perspective on Saturn and Neptune moving into Aries. Also see page 9.

I have been stimulated to look at the metaphysical side of corruption. This is not directed at any political party, government, religion or organization. Corruption occurs at all levels of human expression.

Corruption, in its simplest form, is the abuse of power for personal gain. ~ Goggle

Saturn is associated with government, laws, and bureaucracies. Neptune, at its lowest level, is associated with deception, mass delusion, and fraud. Both are exiting Pisces and moving into Aries 2025-26. Hidden actions of the past several years under Pisces energies are coming to the light of day in Aries. Consider recent news of massive money fraud at nursing homes in New Jersey. Information on former President Biden's hidden health issues are now public. There is no shortage now and in the past of powerful leaders seeking personal gain from what is supposed to be their service to the people they serve, including pardons of convicted felons who donated money (It kind of reminds me of Martin Luther objecting to indulgences in the early church).

Rather than pointing fingers at the latest person to abuse power to the collective for personal gain, it is better to look at the cause of corruption. Below are some ideas from a Goggle search:

- * Plato believed that the human soul is composed of three parts: rational, spirited, and appetitive. Corruption arises when the appetitive part, driven by desires, takes control, leading to a disharmony within the soul.
- * Some spiritual or religious viewpoints see corruption as a result of a decline in moral character, a weakening of faith, or a distancing from divine principles
- * Some metaphysical views see worldly desires as a corrupting influence, leading individuals to prioritize personal gain over the common good
- * A recurring theme in many metaphysical views is the inherent potential for corruption when power is concentrated in the hands of individuals or institutions
- * Some perspectives suggest that corruption can be seen as a result of our limited capacity to perceive the true nature of reality or the consequences of our actions
- * Certain philosophical systems, like those based on the cyclical nature of existence, might see corruption as a natural part of the universe's ebb and flow, like the rise and fall of empires or the changing seasons

From a metaphysical perspective, my personal view is that corruption in terms of misusing power for personal gain comes as a person reduces or loses their connection to Creation. They forget that they are connected to the One Source of All That Is. They get lost in the illusion that they are getting ahead of others by inappropriately taking from the larger collective.

People who use corruption to get ahead forget that energy flows to its own level, just like the old saying that water reaches its own level. Their greed tends to have them living in fear; because at some deeper level, they know that they have disregarded Universal Law— you attract at the energetic level at which you are operating. Seeking to get yours at the expense of others ultimately reduces your Light frequency and brings more fear. Any apparent gain is both temporary and an illusion.

They think they are getting ahead of everyone else when they are actually limiting themselves. **You can only live in illusion for so long before it comes crashing down on you.** In animal totem energy, coyote is the trickster who allows you to believe something false is true, and then pulls the rug out from under you to burst your illusions. Trying to fool the Universe will only come back to bite people who abuse their power at the expense of those they serve.

On another level, corruption occurs to help people let go and move on to the next experience their soul wants to have. This is natural and has happened countless times over many centuries. Think of all the powerful countries that have ruled the world to only be gone now or exist at a reduced level. It used to be that the sun never set on the United Kingdom, the Roman Empire is long gone, and Spain used to rule the seas. The over riding trend in religion is that increasing number of people consider themselves to be spiritual rather than religious.

So it seems there is some need for corruption in the natural order. Somethings need to be released through a natural process of decay. On another level, corruption reaches such a peak level of abuse that it comes to the surface to force humanity to deal with it. In the case of deeply ingrained structures such as government and religion, it is a difficult but necessary process. But change is inevitable and choosing right use of power is the only way that really has lasting effects.
