

# The Seven Rays

Esoteric Astrology for your Spiritual Growth

The "Seven Rays" is a philosophy from the ancient mystery schools. We all come from the one source of All That Is, so we are all made up of all seven rays. However, we choose to have certain of these universal rays be prominent in this life's incarnation to help us do our soul mission. There are rays for your personality and your soul. They are a part of a special branch of astrology known as *Esoteric Astrology*, which is focused on spiritual purpose and growth.

Understanding the rays you were born under helps you to better understand yourself and your spiritual purpose. Of course, this information was already encoded in you at birth, so opening to this esoteric information helps you more easily access that which is already there.

Where your zodiac sun sign represents our little corner of the Milky Way Galaxy, a ray is universal in nature, emanating from the Creative Source. The work of Alice A Bailey and Djwal Khul (Master DK) call this source the Great Central Sun. The idea is that your universal rays combine with your zodiac signs in your natal astrology chart to help you do your soul service.

Mark Dodich has been working with the rays for over 25 years to help you get an improved view of your personal rays and how they work in your life. He does this through the Seven Ray Esoteric Astrology consultation found at **Astromark.us** or in the current quarterly Astromark newsletter at

**[www.astromark.us/newsletter.pdf](http://www.astromark.us/newsletter.pdf).**

Note: I use a couple of different methods to calculate your rays. Because we are looking at universal energies for you through our humble perspective in human form, you must use discernment and listen with your heart to determine if all or part of the information is valid for you. There are also various groups and philosophies looking at the Seven Rays, so there are discrepancies and different views on the subject. I follow most closely with the work of Alice A Bailey. The information in this document has been compiled over many years from many sources, and I keep adding to it, so please excuse a bit of disorganization. Many thanks to all the various sources of information, many of whom are lost so that I cannot give credit where credit is due.

Or, you can just call in the master or archangel best suited to help you with your needs now. I like to use the photos on my meditation altar to remind me of the energy that I am using to help me grow and serve.

I often make note of Archangels and Rays that came up in your Seven Ray Esoteric Astrology Consultation, but also check out the photos on the website or when you come into the office to see which ones resonate with you. ## **Finding Soul Purpose Through the Seven Rays** (This is from an article I wrote, just to give you a hint about the Seven Rays)

A method to better understand spiritual purpose, called the Seven Rays, comes to us through the ancient mystery schools. Knowing your personal rays helps you to more fully activate the speed button for your spiritual path. A ray is simply a frequency of vibration. If you were to call Oneness, white light; and you wanted to create a planet, person, or a chair, you would need to step down this Oneness by providing the illusion of duality (yin-yang, positive-negative, etc.) The ancient mystery school teaches that you would filter the white light through some kind of a cosmic prism. Like a rainbow, seven different frequencies of vibration come out the other side. Each person incarnates with a soul and personality ray. Triads are zodiac signs associated with each ray. Look for your Sun and Rising Signs to get a hint about your personal rays. Although there are specific methods used by esoteric astrologers to help you understand your rays, the following will help you understand the basic interpretations of the rays (and you can go to [www.astromark.us](http://www.astromark.us) for more details)

### **Ray One: The Will of God.**

Triad: Aries, Leo, and Capricorn. This is the inner battle to create Oneness within yourself. You learn self-confidence, the ability to pioneer new paths, and to develop personal power that is aligned with the Highest Source. A negative trait could be misuse of power. This ray is associated with the constellation of the Great Bear. El Morya is considered to be the Chohan of the First Ray, with Lord Michael as the archangel.

### **Ray Two: The Love of God. The Love of Wisdom.**

Triad: Gemini, Virgo, and Pisces. The second ray represents the creative energies. You learn unconditional love and help people to heal by enfolding them in the One Source of all that is. Jesus and Buddha are thought to have incarnated on this ray, and many believe it is the energy that must be used to exit the wheel of continuing incarnations. A positive use would be to release the suffering of humanity. Lanto is considered to be the Chohan and Jophiel the archangel of this ray. It is associated with the star Sirius.

### **Ray Three: Active Intelligence. Abstract Wisdom.**

Triad: Cancer, Libra, and Capricorn. People with a strong third ray influence are like translators. They translate abstract and philosophical concepts into terms that can be understood by all. These are the philosophers, astrologers, and communicators. They can become intellectually isolated if they become overly focused on the third ray. Paul the Venetian and/or Master R is thought to be the Chohan with Chamuel as the archangel. The Third Ray is associated with the Pleiades constellation.

### **Ray Four: Harmony through Conflict.**

Triad: Taurus, Scorpio, and Sagittarius. They often have artistic talents and bring beauty to the world. Fourth ray people often experience difficulties in the first half of their life. This is to teach them to find their inner source of truth and harmony. As they find their way more quickly back to center, they often become counselors for others who recognize their sense of inner peace. Negatively, they can get lost in melodrama and mood swings. The Chohan is thought to be Serapis Bey with Gabriel as the archangel.

### **Ray Five: Concrete Knowledge and Science.**

Triad: Leo, Sagittarius, and Aquarius. A fifth ray person does not have to be a scientist. They are the people who use a systematic process to bring metaphysical truth into concrete reality. They help people to utilize these higher forms of energies. Positively, they help merge the higher and lower mind. The Fifth Ray Chohan is Hilarion with Raphael as the archangel. It is a ray of healing.

### **Ray Six: Devotion and Idealism.**

Triad: Virgo, Sagittarius, and Pisces. Sixth ray people focus on a goal, allowing nothing to get in the way of achieving that goal. This ray is considered to be the ray of Christianity, and the outgoing ray energy on planet earth. Many of these people are "sinner turned saint." They overcome lower orders of the physical to express the highest ideals. A number of years ago, charismatic Jim Jones killed many of his followers in order to take them to the Promised Land. Positively, Martin Luther King helped people see beyond the limitations of prejudice in order to achieve higher ideals. Lady Nada is thought to be the Chohan of this ray along with archangel Uriel.

### **Ray Seven: The initiation of a new order. Ceremonial magic. Transmutation.**

Triad: Aries, Cancer, and Capricorn. It is generally agreed upon that this is the incoming ray of the New Age on planet earth. The energies of transmutation and the Violet Flame are intrinsically tied to this ray. The seventh ray changes lower frequencies of energy into higher frequencies. They must accept responsibility to share with those whom their destiny is entwined. Negatively, they can abuse power for personal gain. Positively, they become the master metaphysician helping planet earth to evolve into its highest frequency of vibration. Most people agree that Saint Germaine is the Chohan and Zadkiel is the archangel.

**Here is a smidgen of information from  
Mark's Violet Flame workshop.**

The Violet Flame is a tool to transform environments. You must use it in a non-judgmental way. For example, if you are healing a person with Cancer, you must be prepared to accept the results, even if healing means that the person chooses to die.

Every man and woman in the new era has an individual two-fold mission—the transmutation of his own discordantly qualified energies of the past, and the conscious control and mastery over the use of his or her life in the present. This is the balance required by the Chela of the Seventh Ray. The few (who are beyond personal karma) assume the responsibility, opportunity, and obligation of utilizing the power of transmutation on behalf of their race, nation, and planet. It is upon these few that we depend for a planetary redemption these years allotted to us by the "Cosmic Law" to make all things new. Are you among these few? ~*St. Germaine*

Violet Flame  
Sweep

The purpose of the *VIOLET FLAME* is to help you experience greater frequencies of your essential soul vibration in your daily life. The Violet Flame is a method for transmuting (raising) lower vibrations into the energy of Light.

### TRANSMUTATION

Here is the way I do it, or adapt to your own style.

- 1) Do protection prayer. Call in St. Germain, Ascended Masters, your guides & healers, or whatever form of Love and Light works for you.
- 2) Set Conditions (I like to say that this is for the Highest Good, which means that it is for the highest good of everyone)
- 3) Set Intent of your objective. (Ex: I raise my vibration to that of God/Creation)
- 4) Invoke (call in) the Violet Flame. Surround and enfold yourself in the burning Violet Flame. We transmute darkness into Light
- 5) Feel how good it is to be working in the situation in its highest form. (This is important. Take the time to really get the feeling of what you are bringing into manifestation: healing, right relationship, prosperity, etc.)
- 6) Give thanks. Release the Violet Flame and those guides who have helped.

It is done. Live in your new Truth.

In the writings of Alice A Bailey who worked with a teacher called "The Tibetan" and later known as Djwal Khul, or Master DK, there is the concept of initiations. The first two initiations have to do with surviving planet earth, making babies to keep the human species going, etc. He talks about the Third Initiation as being one that people on planet earth need to aspire to, going beyond personal ego to be of higher service. The following comes from AAB books ([www.lucistrust.org/](http://www.lucistrust.org/)) and *Sirius* a book by M. Temple Richmond. (Search Amazon.com).

"The Third Initiation indicates the stage wherein, during physical incarnation, the Soul and Personality are so completely integrated that the Personality functions as simply a tool for Soul Expression, no longer an impediment to service or spiritual being." "Thus, The Third Degree initiate has his or her service efforts focused upon improving the alignment of human endeavors with the greater evolutionary Plan.

Therefore, the service rendered may entail exposure to tedium, repetition, and narrowness of perspective, since these things are to be found in the realm of human endeavor. It is the task of the disciple to carry into a given environment that measure of the planned vision which can be accepted. Thus it can be quite fairly said that even the Third Degree initiate may sometimes have his or her head in the clouds (while in some degree in communion with Sirian forces (*Mark's note*, meaning from the star Sirius), he or she most surely has feet planted securely on the ground, rooted in solving the common problems of Humanity."

Master DK started with Madame Blavatsky, a Russian occultist and one of the founders of the Theosophical Society (perhaps she could be called the great grandmother to modern metaphysics) The Blavatsky photo is thought to be an actual photo with important masters who are here to assist the evolution of consciousness on mother earth.

**Sirius** - Esoterically "The Brilliant Star of Sensitivity" is in the constellation Canis Major at 14° Cancer. It is near Orion since it is one of Orion's hunting dogs (trace a line through Orion's Belt towards the southeast to find Sirius in the sky). It is one of the great stars of the sky and has been called The Shining One and The Scorcher by the Egyptians. They also associated the star with Isis in its role of bringing fertility to the Nile River area. The stories and mythology of Sirius are extensive, especially in areas of burning away the mundane in order to make something sacred. Under Sirius, there is a desire to achieve a dream that goes beyond mundane experience. **Sirius challenges you to transform the mundane into the sacred.** It can bring great success, but can also burn you in the process. In esoteric astrology, Sirius is associated with the 2nd ray. This is the energy of Unconditional Love and Wisdom. It is the ray that is associated with getting off the wheel of incarnation, because you love yourself and everything because you see the spark of God in all that is. The ancient Dogon tribe of Africa have held ancient initiation rites related to the star Sirius since the beginning of time. In the Alice Bailey channeled material of The Tibetan, the Third Initiation was closely associated with this star. The Third Initiation is where the personality and soul become so completely integrated that the personality becomes simply a tool of soul expression. You become a true and total servant of Creation.

## The Great Invocation

From the point of Light within the Mind of God  
Let Light stream forth into human minds.  
Let Light descend on Earth.

From the point of Love within the Heart of God  
Let Love stream forth into human hearts.  
May the Coming One return to Earth.

From the Center where the Will of God is known  
Let Purpose guide all little human wills-  
The Purpose which the Masters know and serve.

From the Center which we call the human race  
Let the Plan of Love and Light work out  
And may it seal the door where evil dwells.

Let Light, and Love, and Power restore  
The Plan on Earth.

Check out: [www.lucistrust.org/](http://www.lucistrust.org/)

The Great Invocation is said daily throughout the world by people who are opening to the Highest Truth of their existence. Say this invocation out loud during meditations, and particularly at the time of the full moon when it is said globally by tens of thousands of people. You can find more information on this subject in the books of Alice A. Bailey and the Lucius Trust. "The Rays and the Initiations" and "Esoteric Astrology" are specifically related to work with the seven rays. Check them out at [www.lucustrust.org](http://www.lucustrust.org).

## The Law of ONE

We are all ONE.

When one is harmed, all are harmed.

When one is helped, all are helped.

Therefore, in the name of my Being

Which is ONE with all there is

And is All Powerful and All Loving

And is ONE with all the Masters

And with the Christ,

I ask for that which is for the Highest Good  
of All concerned to happen here.

On the Physical Plane, the Greatest Beauty  
On the Emotional Plane, the Most Profound Joy  
In the world of the Mind,  
the greatest Illumination  
And in the Spirit, Unity.

I offer thanks that this is done.

Source of this is unknown, but thanks to the author

### "Peace & The Law of One "

The Law of One recognizes the interconnectedness of all Beings. Because we are all created from the ONE SOURCE, our souls and physical bodies emanate from that one universal life force. This means that a person suffering far away in the Sudan is an outer representation of that which is going on within each of us- because they are a part of us at the Source. A tsunami disaster in Sumatra reverberates throughout the world because it quakes at the core of Creation. It is like a cosmic spider web. When the web is touched in one place, the spider feels it everywhere along the web. The COVID19 virus dramatically demonstrated that we are all in this together

In terms of our topic of peace, when one person or group is working on inner peace, it helps calm the vibration of non-peace on an outer planetary level and throughout Creation. In this time of great transformation on planet earth, it is easy to get lost in the pain of our personal suffering. Sometimes it is difficult to see the suffering elsewhere because of our own suffering, much less understand why it is going on at all.

If you recognize and consciously remember that we are all connected at the Source, and that the actions in one place have an effect on all others places, dimensions, and realities, then you can understand that your thoughts and actions affect the whole of Creation. Post "the Law of One" in a place that you can see it. Read it aloud at least 7 days in the next month. You are really blessing yourself and holding the vibration of peace.

This page is from a meditation I do in workshops. Perhaps you can use this after your Seven Ray Esoteric Astrology Consultation.

## SEVEN SOUL RAY CONSULTATION Esoteric Astrology

*Opening to Enhanced Dimensions  
of Your Spiritual Service!*

My passion in life is to help people to connect with their soul path in the most dynamic way possible. **The Soul Ray reading is designed to activate a greater expression of your soul and soul service in your life.**

### ***What is a soul ray consultation?***

You will learn about your soul and personality rays. This information is based in the channellings of the Tibetan Master Djwahl Kuhl through Alice A. Bailey. Understanding the ray upon which you have incarnated helps you to work more fully with your energies of soul service. This reading is best for people who have reduced the need to ask "what's in it for me?" and increased the need to know, "what is my soul purpose and spiritual service in this life?"

The reading provides your soul and personality rays and an esoteric interpretation of your astrology chart (a unique focus on your soul purpose with reduced emphasis on mundane issues like love and money). The reading is taped. By choosing to experience this reading, you are calling upon your soul to express an increasing manifestation of the Divine Essence in your life. You are choosing to step into higher levels of soul service.

**This is an excellent tool for those who are shifting out of attachment to the material world in the direction of soul service. It's time for each of us to take increased responsibility for expressing our Divine Nature in our daily lives.**

### Soul Rays for MAHATMA GANDHI

This Great Soul brought independence to India through his Seventh Soul Ray. A person activates their soul ray when they choose to serve a higher good beyond their small self. The 7th is the ray of *transmutation* (changing energy that is less than loving into Love). It is the energy of magic. A 7th Ray person Initiates a New Order. Gandhi's soul purpose was to transform worldly conditions.

Gandhi's Personality Ray was the 5th Ray of Concrete Knowledge and Science. He had a systematic approach to his work which was especially shown earlier in life as he studied to become an Oxford graduated attorney.

"Gandhi continues what the Buddha began, In the Buddha, the spirit of Love sets itself the task of creating different spiritual conditions in the world; in Gandhi it undertakes to transform all worldly conditions."

~Albert Schweitzer

(This quote reflects Gandhi's 7th Ray Soul)

Keep calm and serene, knowing:

**“God is the only intelligence and power acting in your world and affairs”**

I AM in you, is the self-sustaining strength and healing, manifesting in your mind and body. This keeps you in greater attunement. Face God! And the energy always surges forth to command every situation. Individuals who understand this law are not subject to injustice and the conditions which the outer selves of other beings try to impose upon them.
